EXPERIENCE

Immersed Cyber Security   July 2022 - Jan. 2023
Web Developer / Frontend Software Engineer
(Remote)

An immersive cyber security training platform designed to engage all ages while providing educators and administrators robust controls to tailor training content for any user

- Built a form with a real-time preview feature, allowing users to quickly and easily submit their experiences with the cyber security training program
- Modernized interactive capabilities by enabling users to upload images and videos of their experience to increase user engagement
- Facilitated successful development of a user-friendly, scalable web application in collaboration with an agile software engineering team
- Utilized Git for code source control and GitHub for team collaboration and code management of the application
- Integrated RESTful API's, state management and React dependencies to extend browser capabilities
- Conducted daily stand-ups, code reviews, product demos and code sprints using Trello

Hakkasan Holdings LLC   Aug. 2016 - Sept. 2021
Lead Model Bartender
Jewel Nightclub at Aria Las Vegas, NV

- Utilized Agilysys InfoGenesis software and management system for point-of-sale cash and credit card transactions
- Managed upscale table product and guest checks for bottle service waitresses totaling in tens of thousands of dollars per shift
- Delivered expedient customer service while crafting and serving drinks on the bar during high volume nightclub operations

United States Marine Corps   June 2004 - May 2008
Anti-tank Missileman TOW Gunner
Kaneohe Bay, HI

- Specialized in operating highly technical missile weapons systems and radio communications during overseas combat operations
- Led and managed an infantry squad of 11 Marines, setting a gold standard of loyalty, integrity and team cohesiveness
- Developed, tested and supervised live training exercises simulating combat conditions in accordance with military regulations
